

About us

FEGE has more than 25 years' experience in packaging line engineering and manufacturing for **food, pet food, beverage, sparkling wines, sterilized products, personal and home care** industries.

With a wide range of innovative and robust process solutions, FEGE has developed a strong know-how in **high-speed lines** and **delivers these process solutions worldwide**. Teams are focused on **productivity** and **Human/Machine safety**.

NSC Groupe

With more than 200 years of history, NSC Groupe was founded by the Schlumberger family. Quoted on the Paris stock exchange, NSC Groupe is present around the world in the textile, packaging and subcontracting industries.

Since 2013, FEGE is part of the NSC Groupe Packaging division, which also includes PAKEA (paperboard packaging process manufacturer) and MONOMATIC (non-stop un-winding and re-winding equipment).

At the cutting edge of the latest technologies

Our customers around the world

Some references...

Benefits of our solutions

Innovation and ingenuity

Precision

Productivity

Human/Machine safety

Low operating and maintenance costs

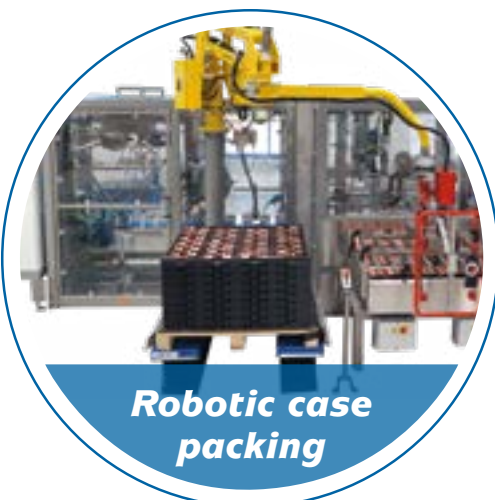

Economical and versatile production

Lane dividing

Non-stop and high speed flow dividing and distribution from 2 to 12 lanes.

Robotic case packing

Top-load case packing. Possibility to mix products to create assortments.

Conveying

- Container conveyors
- Case conveyors
- Aligner
- Blocking star
- Pacer...

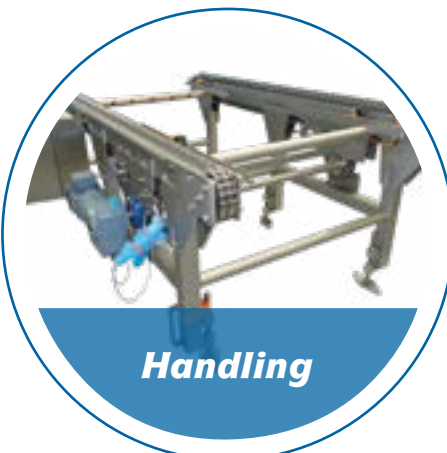

Air drying

Bottles and cans in-line air drying and soft pouches and container mass air drying.

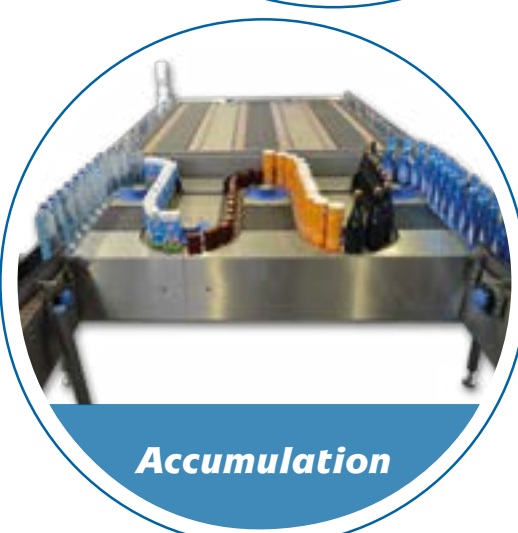

Robotic palletizing

Boxes, bottles, cases palletizing.

Handling

- Pallet conveyors
- Tray and basket conveyors
- Riddling case conveyors
- Turntable
- Shuttle
- Stacker/Destacker
- Case and pallet retacker
- Full pallet stacker...

Accumulation

FIFO and pressure-less accumulation, naturally in-line multi-format.

Loading/Unloading

Loading and unloading of products in sterilization trays and baskets at autoclaves infeed and outfeed.

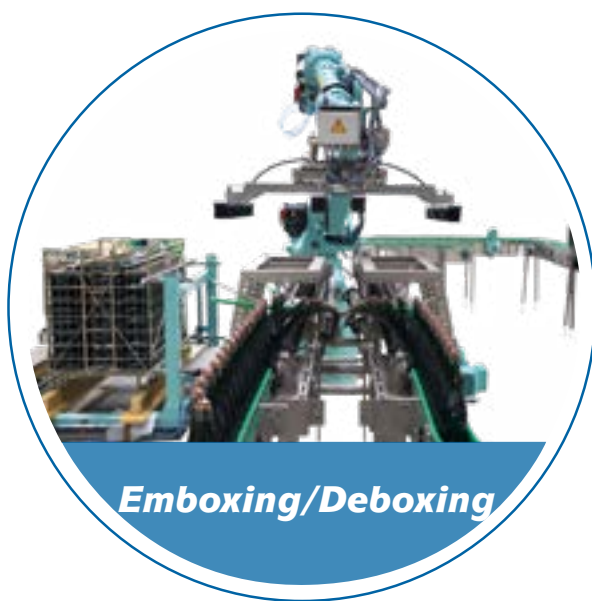

Integration

- Vision inspection
- Elevator/Lowertor
- Cans stacker
- Labeler/Marker
- Stretch wrapper...

Rejection

Rejection solutions using a pneumatic cylinder or a brushless motor.

Emboxing/Deboxing

Bottle loading and unloading of storage case and riddling case for sparkling wine process.
